Register of Inhibitions and Adjudications

On 1 May, an important change will be made to the procedure to be followed when searching the Register of Inhibitions and Adjudications during the examination of Land Register applications.

Change Programme

Workshops are being held for Managers and Team Leaders to consider the implications of the Change Programme and its implementation.

Electronic Document and Records Management System

The [EDRM System](#) for corporate records management will be rolled out across the Agency from Monday 1 May and will be completed by 14 June. It is an essential element of the Agency's corporate governance and will greatly enhance our ability to demonstrate accountability for our actions and activities. All existing corporate records will be available for migration from the fileshare system into Vignette Records and Documents (VRD) on completion of the Fileshare Migration Project.

File Migration

The pilot phase of the [File Migration Project](#) is now complete and workshops for Local Information Managers have taken place.
