The Agency has now agreed the scope and outline timetable for the Registration Fee Review with ROSMAB. A project has been established within the Programme Office to undertake the review.

Business Plan

The plans, currently being developed by the Agency, have a new format. Instead of there being a separate "Business Plan", our plan for 2006/07 will form part of an integrated planning document containing both short and long-term plans. This plan sets out what the Agency seeks to achieve. The next stage of the planning process is for each Directorate to develop their own plan with more detail on how they will contribute to achieving the Agency's objectives. Next month's Forum will give details of how staff can contribute to that process.
