

# Fair Trade Policy

WSH work with our suppliers and clients to meet the demands of customers for fairly traded products. Many of our locations participate in the Food for Life Catering Mark scheme which requires ethically traded products to be available.

We recognise the Ethical Trading Initiative and its aims to improve the pay and working conditions of employees on farms and in factories around the world. Baxter Storey is registered with The Fairtrade Foundation as a supplier of Fair Trade goods.

To enable our clients to be offered the widest available choice of imported products we include in many categories, suppliers who are able to supply Fair Trade Products by having signed up to the Fair Trade Mark and the Rainforest Alliance.
