### Part 1 - New digital services in the Keeper's registers

**1 Do you agree that transition to a digital first service should be the next step?**

No

**Comments:**

In the longer term yes; unfortunately Digital Scotland has failed to provide an effective efficient level of service for the majority of areas in rural Scotland. Once this is in place then transition to a digital first service would be appropriate.

**2 Do you agree with the proposed timescale of 1 April 2018 for prescribing that advance notices over part be fully digital?**

No

**Comments:**

See above due to POOR digital services in rural Scotland.

**3 Do you agree with a notice period of six months?**

No

**Comments:**

**4 Do you agree the initial focus for digital registration, following launch of the digital discharge service, should be provision of channels aimed at standard securities and dispositions?**

No

**Comments:**

See above

**5 What deed types do you consider we should prioritise for new services subsequent to securities and dispositions?**

**Comments:**

See above

**6 Do you consider that for the limited purpose of dual recording, it should be permissible to record an electronic deed in the sasine register or should be permissible to record a paper copy of the digital deed?**

**Comments:**

See above

**7 Do you agree that ten working days from the date of digital submission is an appropriate period to allow the prior deeds to be submitted?**

Yes

**Comments:**

**8 Do you have a view on alternative ways you would like to present supporting documents accompanying a digital application?**

### Part 2 - Digital application form and submission process

**9 Do you agree with the main changes that we propose to make to the application form?**

Not Answered

**Comments:**

**10 Are there any other changes you suggest we should make with a view to simplifying it and making it easier to follow?**

Not Answered

**Comments:**

**11 Do you agree that instead of prescribing the content of the application form in the Land Register Rules, the keeper should publish the land registration application form on an administrative basis so that it can be amended from time to time, following consultation and due notice, without the need for changes to be made to the rules?**

Not Answered

**Comments:**

**12 Do you agree that this approach should be adopted for both applications submitted on paper and applications prepared through a digital service provided by the keeper?**
